SWIMMING POOL INFORMATION

Ten (10) feet from any building  
  
Six (6) feet from either side or rear lot lines  
  
Pool may not be in front yard setback  
  
Twenty (20) feet from sewerage disposal system

FENCING:

Regulation #6 of the Swimming Pool Regulations of the Town of Stoughton Board of Health states:

"Every person owning land on which there is built a swimming pool or permanent wading pool which constitutes an obvious hazard and contains more than eighteen (18) inches of water in depth at any point, shall erect and maintain thereon an adequate enclosure either surrounding the property or pool area, sufficient to make the pool inaccessible to small children. Such enclosure, including any gates, must be not less than four (4) feet above the underlying ground."

WIRING:

A wiring permit must be obtained by a licensed electrician before a swimming pool permit may be issued.

PLOT PLANS:

Two (2) plot plans must be submitted with applications showing all buildings on the lot, location of the septic system, and all distances as noted.

POOL AREA STAKED

Exact area where pool will be placed must be staked before inspection.

WATER

After May 15, 1979, all water to fill pools must be trucked in from an independent supplier and evidence of same must be presented to the Board of Health at time of application for pool permit.

POOL INFORMATION

Complete pool plans and specifications must accompany the application. Plans shall accurately show dimensions and construction of pool, details of water supply system, drainage and water disposal systems, and all appurtenances pertaining to the swimming pool. Detail plans of structures, vertical elevations, and sections through the pool showing depth shall be included.

ABOVE GROUND POOL

Must have self-latching gates and have stairs enclosed.
