ONLINE PARENT SURVEY

PARENTS, your feedback is
VALUABLE and **EFFECTIVE** in
preventing youth substance use.

The OASIS Coalition has developed a survey to understand what resources would be most helpful to Stoughton parents and caregivers (like you) so that you can continue to support Stoughton youth in making healthy decisions.

This survey should only take about 5 minutes. Every question in the survey is optional and your participation is completely voluntary. All surveys are anonymous.

Thank you for your help!

The Town of Stoughton is preparing to launch a new and improved municipal website during the month of February. Users will see not only a familiar, but improved website after going through a redesign and upgrade process with CivicPlus (a leading government website provider).

Some new features we feel you will be excited about are:

- Service-based navigation with an emphasis on service delivery and ease of use (along with a new clean design that is both visually appealing and functional)
- Calendar functionality which allows citizens to stay informed about the scheduling of important local events, including public meetings, classes, activities, community events, and other valuable opportunities for engagement
- Embedded Social Media (Facebook) – located on our front page for those who do not have Facebook accounts
- Online Job Application functionality
- Dedicated landing pages for Police, Fire, DPW, Library and Recreation
- An online “Report a Problem” form that allows users to report service requests, such as a pothole, streetlight outage, sewer issue, and more...
- Alert Center – this functionality allows us to alert citizens with time sensitive information and instructions using multiple channels, including the website homepage, social media and email
- Enhanced search functionality site-wide that allows staff to review what users are searching for and revise the site structure to continually improve the user experience
- News and page subscription options for residents to stay informed of all municipal updates
- Document Center – This will serve as a single, conveniently accessible repository for all forms, documents, and files citizens routinely require so they can self-service many of their municipal requests (without the need to walk into an office or place a phone call)
- The Agenda Center allows for the storing, sharing, and searching of public meetings and agendas and enables citizens to remain informed and engaged in public policy and local issues

THIS APP IS MADE POSSIBLE THROUGH THE WORK OF OLD COLONY PLANNING COUNCIL IN COOPERATION WITH THE TOWN OF STOUGHTON AND WITH GRANT FUNDING FROM THE MA OFFICE OF BUSINESS DEVELOPMENT.

Greetings Citizens of Stoughton

I hope you made it through the coldest period in recent history. I recognize the burden that such drastic weather can place on people and their homes. Please know that your town Government stands ready to be helpful during those difficult times.

As you may have heard, your historic Town Hall did not fare well with the bitter cold. On Sunday morning, I received a call from Chief Carroll and another from DPW Superintendent Paul Giffune. They informed me that a sprinkler head exploded in the Great Hall. Due to the quick response of our Fire Department, the water and power to the building was shut off within 7 minutes. Unfortunately, thousands of gallons of water had already flooded the Great Hall and adjoining offices, eventually finding its way to every floor of the building. Water ran through the walls, crashed through the ceilings, destroying equipment, rugs, and furniture along the way. When I arrived on site, Chief Carroll and DPW Superintendent Paul Giffune had already implemented an Emergency Action plan. More than a dozen DPW employees and local contractors had been mobilized in an effort to minimize the damage. In only six hours, both water and electrical power were restored. Elevator repair specialists were activated. ServPro was hired to begin the drying process. As I write to you today, approximately 3 dozen high powered fans are blowing throughout the building and every employee is in the office (enduring the noise of the blowers).

Fortunately, for the Town of Stoughton, all of our buildings are well insured. Based on the insurance adjusters preliminary estimate, significant demolition and reconstruction of the building will be needed. We are developing a work plan in an effort to minimize interruption in services while this work is ongoing. I will have more to report on that as information becomes available.

The Town Hall building is more than 100 years old. Like many of our roads, and much of our water and sewer infrastructure, these systems are operating well beyond their useful lives. Because we are well insured, we will get through this disaster with minimal distraction and expense. However, it is so vitally important that we recognize and acknowledge that which we can not see. With 100 year old water and sewer lines, as well as roads that have not been replaced or resurfaced in many decades, we need to anticipate and plan for sudden infrastructure failures. Potential failures could range from a major failure of a road system to a pipeline that runs thru the center of town, creating major damage and disruption to businesses and residents alike. Most of those breaches would not be covered by insurance. Therefore, we must prudently plan for infrastructure investments and unforeseen breaches. Failure to do so is irresponsible. The only way to deal with both challenges is through investment and substantial increases to our stabilization fund. We plan to address both of those needs at the Annual Town Meeting.

I understand that this type of news is unwelcome. I also know that replacing roads and underground infrastructure is not very exciting. I've never attended to a ribbon cutting to celebrate investments in

underground infrastructure! I also know however, that the time is now for us to recognize and deal with all of our challenges. That is your Governments obligation to Stoughton residents.

In closing I would like to offer my sincere thanks to the members of the Fire and DPW departments as well as contractor Bill Lima at Atlantic Carpet cleaning. They responded immediately to our call and worked tirelessly throughout the evening to minimize damage and make it possible for Town Government to work effectively on Monday.

I look forward to talking to the citizens of Stoughton again next week.
