Prospect Street Water Main Replacement Project

Dear Customer:

The Stoughton Water Department wants to inform you that they have entered into a Contract with C. Naughton Corp. to replace and upgrade the water mains located on Prospect Street, between Pleasant Street and Park Street. The new water main will be installed on Prospect Street and includes connections to Seaver Street, Walnut Street, Leach Street, Belcher Street, Broadway, Boylston Street, and Park Street. The Contractor is expected to begin working the week of **June 26th**, at the intersection of Prospect Street and Pleasant Street, proceeding towards Park Street. All work including trench paving is expected to be completed by the middle of October. Access to your driveways and parking areas will be maintained at all times during construction.

If you have any issues during construction, please reach out to our contractor directly, Matthew McLaughlin, at 781-563-0451. Matthew is typically on site from 7 a.m. until 4 p.m. Alternatively, feel free to call the Water & Sewer office, 781-344-2112, ext. 9419.

The Water Department is committed to making improvements to the Town's infrastructure with as little inconvenience as possible to our customers and the residents of Stoughton. Our goal is to complete this project in a timely manner and minimize any and all disruptions to you. Thank you in advance for your cooperation, support, and understanding.

Philip A. McNulty, P.E.
Water & Sewer Superintendent
